PROFILE

Full Stack, AI, and Cybersecurity Engineer specializing in building scalable web and mobile applications. Experienced in secure application development, REST APIs, authentication, role based systems, and machine learning. Focused on clean architecture, performance, maintainability, and practical cybersecurity.

PROFESSIONAL EXPERIENCE

Full Stack Development, Intern 02/2024 – 09/2025 | Addis Ababa
Developed multi role multilingual support platforms for LIMS (Laboratory Information Management System) frontend using React + Vite + Typescript + Django

EDUCATION

St. Mary's University, Bachelor of Science in Computer Science 2022 – 2026 | Addis Ababa
Graduated with a strong foundation in Computer Science,

SKILLS

Full Stack

React, Vite, TypeScript, Django, PostgreSQL, Node.js, REST APIs, Tailwind CSS

AI / Machine Learning Engineering

Python, Scikit learn, PyTorch, TensorFlow, OpenCV, YOLO

Cybersecurity

Web Application Security, API Security, OWASP Top 10, Secure Coding, Security Testing, Linux

DevOps & Tools

Git, GitHub, GitHub Actions, Docker, Jenkins, AWS

CERTIFICATE

AI Career Essentials 🏆 (ALX Africa (or AL Group) 03/2025 – 09/2025) |

Artificial Intelligence Fundamentals 🏆 (Udacity Nanodegree 02/2025 – 12/2025)

PROJECTS

Laboratory Information Management System (LIMS) 02/2024 – 09/2025
Designed a multi role laboratory management platform with secure authentication, role based workflows, sample tracking, test results, and reporting using Django, PostgreSQL, React, and REST APIs.

Web Application Security Lab 01/2026 – 02/2026
Conducted security testing of web applications and APIs in controlled environments, focusing on OWASP Top 10 vulnerabilities, authentication, access control, and secure configuration using tools such as Burp Suite and OWASP ZAP.
